My Story:

I am a self taught developer thru google, youtube and internet courses from zero knowledge of them. Passionate in javascript programming language it like can build a lot awesome stuff and could improve great performance and great user interface for user.

More:

Between switching job, improvement my graphql and develop in react framewrok. Some work in my Github project.

<https://github.com/wilkersoh>

Other:

Interesting in react stuff, morely NextJs(react framework) and graphql .

Expect Salary Range: Rm 2700 - RM 3400 (Accoding location)
