TECH SKILLS (BACK-END)

- Php, Laravel, MySql, MVC, Relation

OTHER SKILLS

- Linux command, Git, devOps(Setup serve in cloud), Mongodb, Graphql, Serverless

My Story:

I am a self taught developer thru google, youtube and internet courses from zero knowledge of them. Passionate in javascript programming language it like can build a lot awesome stuff and could improve great performance and great user interface for user.

More:

In this gap after leaving job, going to pick up graphql and develop in react framewrok. I'd like to explore and focus in javascript for my next career path. Some work in my Github project.
https://github.com/wilkersoh

Other:

Interesting in react stuff, morely NextJs(react framework) and graphql .

Expect Salary Range: Rm 2700 - RM 3000
